

# SPEND & PAYMENT INSIGHT

PRGX Case Study: Grocery Retailer with Numerous Acquisitions, Leading to Complex, Disparate Data Systems

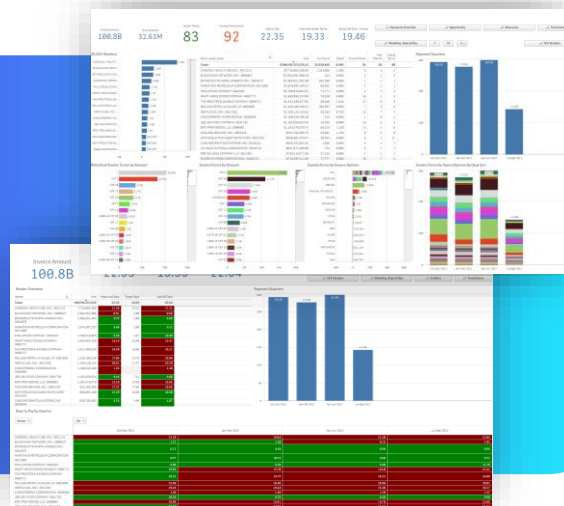

LARGE  
NATIONAL  
GROCERY  
RETAILER

## BACKGROUND & CHALLENGES

- ❖ Underwent an ERP transition to Oracle last year
- ❖ DPO dashboard: Initially needed visibility into potential early payments with their indirect suppliers, but has completely evolved into a robust “one-stop shop” that houses both direct/indirect spend with working capital and categorization visibility down to the item level

## APPROACH

- ✓ Spend, Payment Terms and Days to Pay at the category, supplier and item level
- ✓ Working Capital trend and opportunity analysis
- ✓ Direct and Indirect spend categorization
- ✓ Utilize the dashboard to quickly access reporting for period close

## RESULTS

**\$400B** Spend analyzed over 4 years

**>40K** Unique suppliers analyzed

**7** FTEs that access on a regular basis

Ongoing use of recovery audits and deduction management technology
